

The Damascus Wildlife Rangers

These are the tentative stages for
Saturday, November 14th, 2020.

Because of the anticipated cool weather, these stages have very minimal movement and are designed to be quick. The stage design is meant to be easily shot, easy to set up and quick to tear down but, still full of shooting fun.

These stages are subject to modifications due to rainy weather or changes needed to correct an error or safety problem.

They are published, as a courtesy, to our match attendees. They are posted without the benefit of our regular posse leader walk through or the test match by the match director. Safety modifications can be made as late as the day of the shoot. The stages however, should remain close to what is published here.
