CONSERVATION COMMITTEE -- Nothing new to report this month.

RIFLE & PISTOL RANGES -- Several bullet holes have been discovered in the roof of the pistol range firing point shelter. Carelessness of this nature cannot be tolerated. Each member using these ranges must review their own firearms handling procedures and take the precautions necessary to prevent these kinds of accidents. Remember your ranges are the stakes if we lose.

Some members persist in not displaying their range approved membership cards, please review the Range Regulations and comply with them. All members that use the ranges are required to have their cards stamped Range Approved.

Our thanks to the members who have made Range Clean-Up day much easier by policing up after themselves. As a result, time was made available to construct a handicap access and parking for the pistol range.
