The Trap and Skeet Ranges will be closed December 26 and 27, so that our Range Officers can enjoy their holidays with their families.

A reminder to all Range Officers that only members can purchase reloading components, and checks can only be accepted from members.

Trap #2 is not operational at this time. A replacement solenoid has been ordered. The problems experienced with Trap #1 have been corrected.

As a result of the incident in October where a Club member wanted to pattern his shotgun with #2 steel shot, the Board of Directors decided that a place should be designated to allow for this, especially with steel shot being required to hunt waterfowl on Maryland's coast. Accordingly, we have positioned hay bales along side of the high house on Field #1. Patterning may be done on any Saturday or Sunday 10:00 a.m. to 12:00 noon. Members wishing to pattern their shotguns will need to provide their own target paper, and will be expected to clean up all refuse when finished.
